EDUCATION

University of California, Irvine — Irvine, CA
Bachelor's of Science in Biological Science, Dean's Honor List (GPA: 3.566) — *Aug. 2018 – June 2022*

Georgia Institute of Technology — Atlanta, GA
Master's of Science in Computer Science, Current Grade: A — *Aug. 2023 – Jul. 2025*

PROJECTS

Forkify | *HTML, CSS, JavaScript* — Live Demo
- Developed a front-end web application that displays over 1,000,000 recipes using the forkify API
- Implemented CRUD functionalities that allow users to create, read, update, or delete recipes
- Allows users to bookmark and view directions for each recipe

Mapty | *HTML, CSS, JavaScript* — Live Demo
- Developed a front-end application that allows users to keep track of their workouts
- Users can log their workouts – type of workout (running, cycling), location, distance, time, speed, etc.
- Implemented geolocation and displayed a real-time map using Leaflet

Bankist | *HTML, CSS, JavaScript* — Live Demo – user: jd, pw: 2222
- Developed a fully functional front-end banking website that allows users to withdraw, deposit, or transfer money
- Leveraged CRUD functionalities to allow users to mimic an actual banking application
- Implemented the Intl API to obtain the current date, time, and location of each transaction

Bankist Website | *HTML, CSS, JavaScript* — Live Demo
- Developed a mock banking homepage using vanilla Javascript and HTML/CSS
- Implemented lazy loading, smooth scrolling, slider components, and more

Fast Pizza Co. *HTML, CSS, Javascript, React* — Live Demo
- Developed a mock pizza company interface that displays different types of pizzas for customers to choose from
- Leveraged React fundamentals such as components, props, and JSX

RELEVANT COURSEWORK

Previous Coursework: Object-Oriented Programming, Principles of Object-Oriented Design, Data Structures and Algorithms, Linear Algebra
Current Coursework: Human-Computer Interaction, Graduate Introduction to Operating Systems, Computer Networks

TECHNICAL SKILLS

Languages: Python, Java, C++, HTML/CSS, JavaScript, SQL
Frameworks: Node.js, React
Developer Tools: Git, VS Code
